

Kingskerswell Parish Council is inviting quotes to rebuild our website early this year. Our current website is not 100% complete and there are some errors and broken links. It is also not particularly easy to edit.

The new site can be very simple but needs to comply with the requirements we have in our accessibility statement. We would like to be able to directly upload, edit and remove pages, articles, photographs etc and self administer the basics as required. We would also like to have domain specific email addresses and an admin controlled "have your say" page to allow parishioners to contact us in a forum style without having to resort to social media.

I will be grateful if you can reply to me with any questions but the parish council clerk at kkpcclerk@gmail.com with any quote for a new site and annual hosting please. Our existing site is listed below for information.

Kind regards

Cllr Neil Penman
Chair, Kingskerswell Parish Council
